CLEVELAND, OHIO

General Information

This "ILLUSTRATED SUPPLEMENT" is intended for use in connection with the "OFFICIAL UNIVERSAL CATALOG" of Electrical Service Parts. The pictures in this "Supplement," and lists of cars on which each part is used, enable salesmen, stock room men and mechanics to work from the part. The "Universal Catalog" is arranged according to make, year and model of car, and should be used when ordering a part according to year and model of car. The "Universal" should also be used in working from the model number of the electrical unit (see tables in back of "Universal").

The pictures in this "Supplement" identify parts, and the listings of popular cars using each part enable any user to determine whether or not to stock each part listed. All reasonably popular parts are listed.

This "Supplement" is an official publication of the Automotive Electric Association and has been compiled by the catalog departments of the manufacturing members of the association. The Association is composed of: 1. All leading firms in the United States supplying original electrical equipment to car factories. 2. Electrical Service Stations authorized by such manufacturers to provide Official Service.

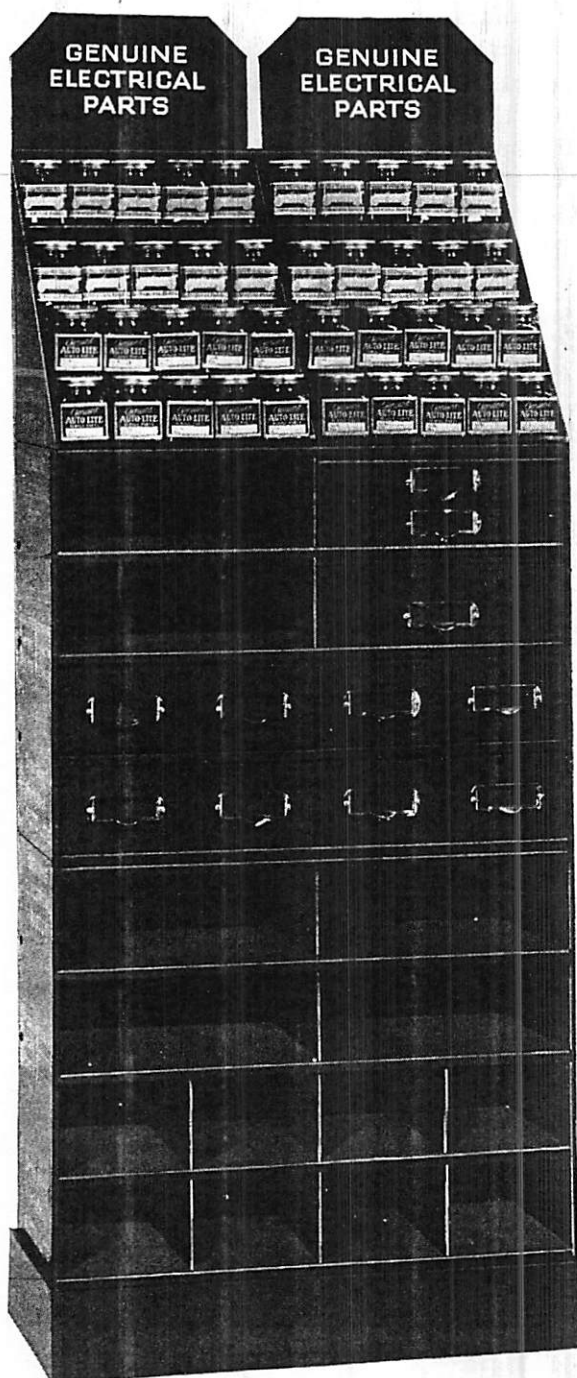

"Genuine" Original Equipment Parts only are shown in this Supplement—Only the 100 per cent use of Genuine Parts will enable repair men to provide the service the owner expects—"Genuine Parts from the Bins of the ORIGINAL Equipment manufacturers"—designed to meet the rigid tests of car factories—and improved by the designing engineers when improvement is needed to meet actual service needs.

The prices shown in this Catalog are United States standard list prices and are subject to change without notice.

A.E.A. Electrical Parts Merchandising STOCK BINS AND CABINETS

COMPLETE MERCHANDISING BIN NO. 1111
Height 55", Width 24 $\frac{3}{8}$ ", Depth 12", Approximate
Weight 121 lbs. See following pages for individual
units which combined make Bin No. 1111 and other
combinations.

THERE is a growing demand for compact and flexible stock display and bin equipment for the use of all classifications of the automotive trade for conveniently displaying and stocking electrical parts.

The electrical equipment manufacturers, whose products are illustrated in the catalog, working with the leading bin equipment factories have designed and made available through distributors of genuine electrical parts, the special A. E. A. Electrical Parts Merchandising Bins and Cabinets illustrated in this section.

Consider the following features:

1. CONSTRUCTION

(a) Unit construction—each unit self-contained or may be used as a definite part in any combination desired.

(b) Permanent and substantial—not a makeshift.

(c) Standard olive-green "locker" finish.

2. FLEXIBILITY

(a) Five basic units which can be built up into almost any desired combination.

(b) A unit for any type or kind of electrical parts assortment.

(c) Starting with a small glass jar unit units may be added as more bin space is required. (Illustration on this page shows a completed stock bin.)

3. AVAILABILITY

(a) Order units or combinations desired from the same concern from which you obtain genuine electrical parts.

(b) Select bin equipment to fit the parts you carry, not your parts stock to fit the bins.

(c) It is not necessary for you to buy a fixed or questionable assortment of parts on the basis "they come with the bin." Your supplier of genuine electrical parts will make up fast moving parts assortments and supply bin equipment at special net prices to fit your particular needs.

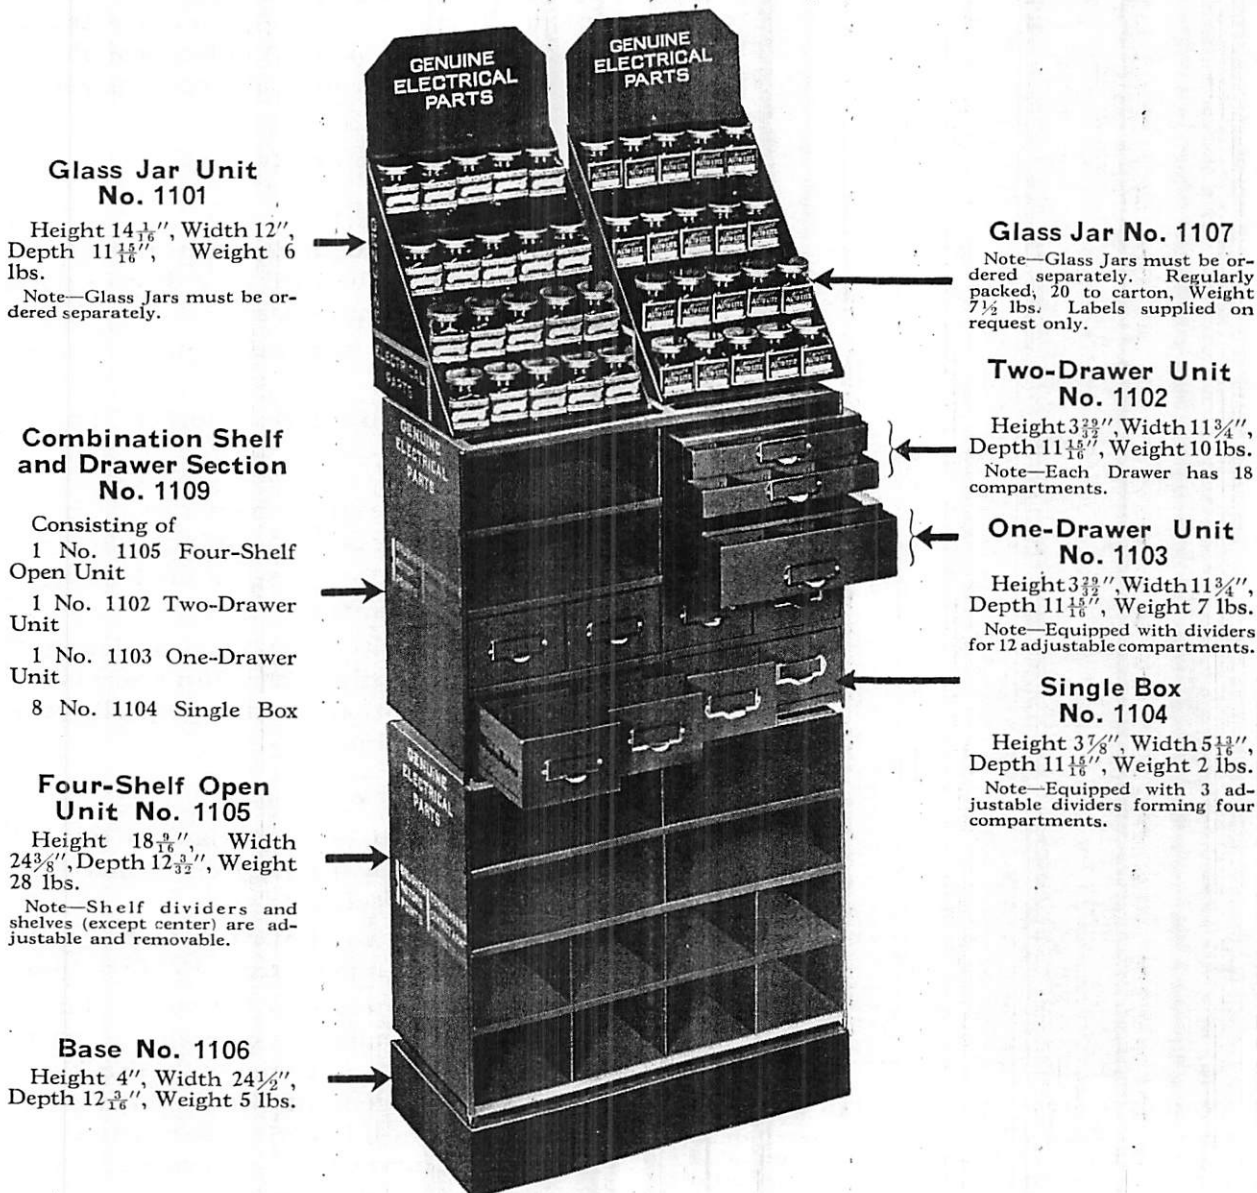

A.E.A. Electrical Parts Merchandising STOCK BINS AND CABINETS

COMplete Merchandising Bin No. 1111 illustrated as a single unit on the preceding page is made up of the following units as illustrated below:

- 2 No. 1101 Glass Jar Units
- 2 No. 1105 Four-Shelf Open Units
- 1 No. 1106 Base
- 1 No. 1102 Two-Drawer Unit
- 1 No. 1103 One-Drawer Unit
- 8 No. 1104 Single Boxes

Glass Jars (Part No. 1107) extra, and should be ordered as required.

It will be noted that each of the above units (except No. 1104 single box) is self-contained. Any unit may be used by itself or in combination with other units as desired. Combinations are easily built and are made up into substantial bins and cabinets by simple patented features.

Glass Jar Unit No. 1101

Height $14\frac{1}{16}$ ", Width 12",
Depth $11\frac{1}{16}$ ", Weight 6
lbs.

Note—Glass Jars must be ordered separately.

Glass Jar No. 1107

Note—Glass Jars must be ordered separately. Regularly packed, 20 to carton. Weight $7\frac{1}{2}$ lbs. Labels supplied on request only.

Combination Shelf and Drawer Section No. 1109

- Consisting of
- 1 No. 1105 Four-Shelf Open Unit
 - 1 No. 1102 Two-Drawer Unit
 - 1 No. 1103 One-Drawer Unit
 - 8 No. 1104 Single Box

Two-Drawer Unit No. 1102

Height $3\frac{3}{8}$ ", Width $11\frac{3}{4}$ ",
Depth $11\frac{1}{16}$ ", Weight 10 lbs.
Note—Each Drawer has 18 compartments.

One-Drawer Unit No. 1103

Height $3\frac{3}{8}$ ", Width $11\frac{3}{4}$ ",
Depth $11\frac{1}{16}$ ", Weight 7 lbs.
Note—Equipped with dividers for 12 adjustable compartments.

Single Box No. 1104

Height $3\frac{7}{8}$ ", Width $5\frac{1}{16}$ ",
Depth $11\frac{1}{16}$ ", Weight 2 lbs.
Note—Equipped with 3 adjustable dividers forming four compartments.

Four-Shelf Open Unit No. 1105

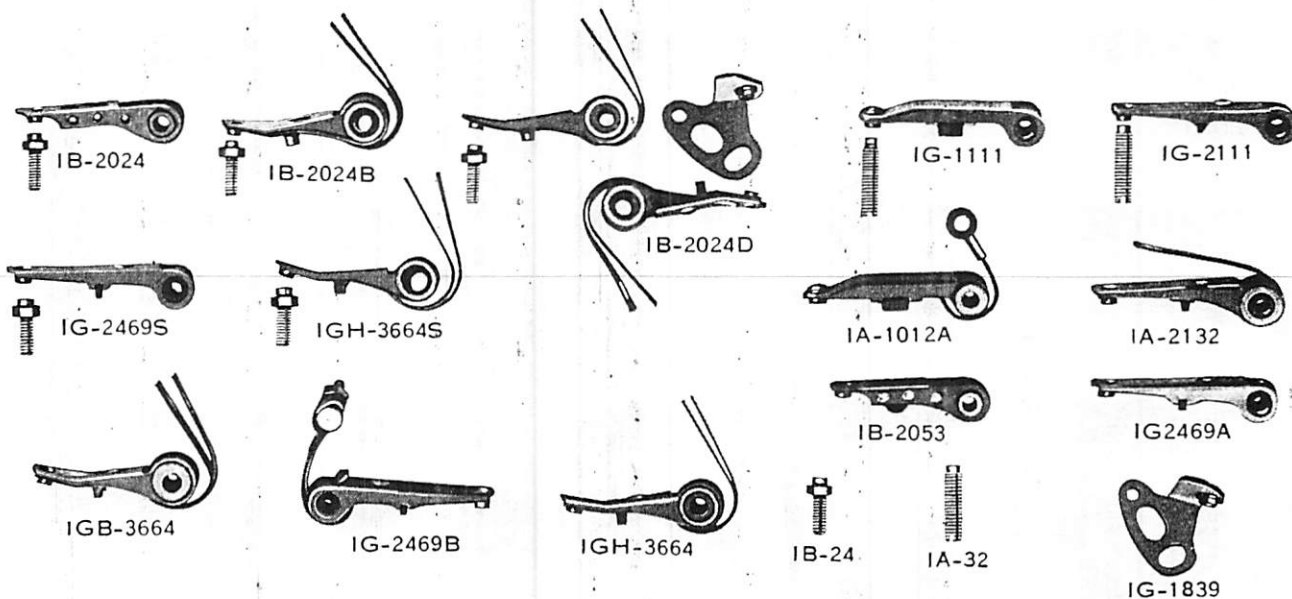

Height $18\frac{3}{16}$ ", Width $24\frac{3}{8}$ ",
Depth $12\frac{3}{16}$ ", Weight 28 lbs.

Note—Shelf dividers and shelves (except center) are adjustable and removable.

Base No. 1106

Height 4", Width $24\frac{1}{2}$ ",
Depth $12\frac{3}{16}$ ", Weight 5 lbs.

There are three Universal Auto-Lite coils which are designed to service nearly all Auto-Lite coils used as original equipment. These include the IG-4070 standard 6-volt coil, the CE-4002 high speed 6-volt coil and the CF-4002 12-volt coil.

In the first group listed below are the original equipment coils which can be serviced by IG-4070 service coil, in the second group are the original equipment coils which can be serviced by the CE-4002 service coil and in the third group are the original equipment coils which can be serviced by the CF-4002 service coil. Opposite each "Original Coil No." appears the bracket number to be used with the proper Universal Auto-Lite Coil.

GROUP 1—IG-4070

GROUP 3—CF-4002

The following is a partial list of the cars using group 3 coils as original equipment which may be serviced with the CF-4002. Opposite each car name and year appears the proper bracket to be used when servicing with a CF-4002.

Car Name and Year	Bracket No.
Brockway 1930	IG-1595
Diamond T 1930	IG-1595
Gramm 1929	IG-1597
Relay 1930	IG-1595
Universal 1927 to 29	IG-1595

Part No.	PRICES	Price
IG-4070		3.50
CE-4002		4.75
CF-4002		5.85

NOTE—The prices shown for the above three coils include a choice of any one bracket listed above.
IG-3635 .90

To give the maximum in power, speed and pick-up, GENUINE ORIGINAL EQUIPMENT IGNITION COILS are designed and constructed in accordance with modern high standards of engineering and manufacturing practice. They are heavily insulated to prevent short circuiting or leakage and to withstand variations in temperature. The balanced windings give the required amount of high tension current without consuming excessive primary current which results in long life of distributor contacts, condensers and spark plug electrodes.

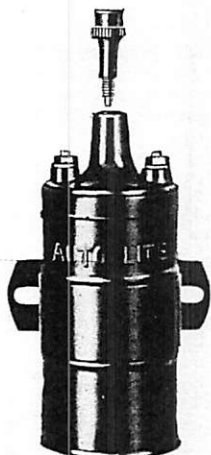

Always test the coil when "tuning up" or overhauling a motor and also when making distributor repairs. Your customers will appreciate the improved performance from the use of a new ORIGINAL EQUIPMENT MANUFACTURER'S COIL.

APPLICATION DATA

No. 526-B, Standard Universal Coil, \$3.00

No. 526-B Delco-Remy Standard Universal Coil is designed to service 47 different models of Delco-Remy original equipment coils. It may also be used to take the place of three additional coils, formerly used as Universal Coils, but which would replace only a portion of the 47 original equipment coils which may now be serviced with the one No. 526-B Universal—when used with the proper bracket.

Below is a list, according to coil model number, of the 47 original equipment coils. Opposite each "Original Coil No." appears the proper bracket and condenser package to use when making a replacement with No. 526-B Universal Coil:

Original Coil No.	Bracket No.	Condenser Package No.	Original Coil No.	Bracket No.	Condenser Package No.
171-A	1842365	1842806	284-L	1842365	1842806
173-A	1842365	1842806	284-P	1842365	-----
175-A	1842365	1842806	284-S	1842365	-----
281-A	1842365	-----	284-T	1842365	-----
282-L	1842365	1842806	284-V	1842365	-----
284-A	1842365	-----	284-W	1842365	1842806
284-B	1842365	1842806	284-Y	1842365	1842806
284-D	1842365	1842806	SM-1000	1842365	-----

284-K	1842365	1842806	525-B	1842362	-----

(Continued on next page—first column)

No. 530-L, Special Universal Coil, \$6.00

No. 530-L Delco-Remy Special Universal Coil has been developed to meet special conditions such as high compression, high speed, continuous heavy duty, and other engineering requirements of modern multi-cylinder engines. It may be used to service all of the coils which No. 526-B Standard Universal Coil will replace and is particularly designed to service 11 different models of Delco-Remy original equipment coils.

Below is a list, according to coil model number, of the 11 original equipment coils. Opposite each "Original Coil No." appears the proper bracket to use when making a replacement with No. 530-L Special Universal Coil:

Original Coil No.	Bracket No.	Original Coil No.	Bracket No.	Original Coil No.	Bracket No.
528-G	1842364	530-H	none	2182	1842364
530-B	1842364	530-J	none	2189	1842365
530-D	none	2115	1842365	2195	1842364
530-G	none	2179	1842365		

The following is a list of the cars using the above coils as original equipment. Opposite each car name and year appears the proper bracket to use when making replacement with No. 530-L Special Universal Coil.

Car Name and Year	Bracket No.
Cadillac 1915 to 26	1842365
Cadillac 1926 to 30	1842364

No. 529-F, Standard Universal Coil, \$4.00
12-Volt

No. 529-F Delco-Remy Standard Universal Coil (12-volt) is designed to service 12 different models of Delco-Remy original equipment coils.

Below is a list, according to coil model number, of the 12 original equipment coils. Opposite each "Original Coil No." appears the proper bracket to use when making a replacement with No. 529-F Universal Coil:

Original Coil No.	Bracket No.	Original Coil No.	Bracket No.	Original Coil No.	Bracket No.
177-A	1842365	529-A	1842365	2169	1842365**
178-A	1842365*	529-B	1842364	2177	1842365
178-B	1842365	529-C	1842364	2185	1842364
178-C	1842365	529-E	1842362	2199	1842364

* Condenser Package Part No. 1842806 also required.

** Auxiliary Bracket Part No. 34759 also required.

The following is a list of the cars, using the above coils as original equipment, which may be serviced with No. 529-F. Opposite each car name and year appears the proper bracket to use when making replacement with No. 529-F Universal Coil.

Car Name and Year	Bracket No.
Auto Car 1930	1842364
Ballot 1928 to 30 (Export)	1842364
Bickle Fire Engine 1928	1842365*
1931	1842365
Buda 1930-31	1842364

The true test of an Ignition Coil is under actual operating conditions, and when the symptoms point to a "weak" coil an immediate improvement in engine performance will be noted after installing a new ORIGINAL EQUIPMENT MANUFACTURER'S COIL. Short circuited windings or broken down insulation will result in missing, hard starting, or loss of speed and power, therefore it is important to check the coil on all motor repair jobs and replace when necessary.

Used on: Davis 1925 to 27 Hertz 1925 to 27 Kermath 1926 to 28 Klieber 1925 to 28 Moon 1924 to 27 Nash 1924 to 27 Scripps 1926 to 28 Yellow Cab 1925-26 and 8 others		120095 Rubber Nipple\$.05		Used on: Standard equipment on a large number of popular cars. May be used on practically all Delco - Remy Distributors with upright outlets for spark plug wires.	
16628 Weight and Shaft, Governor -----	3.00	805044 Lead Assembly, Low Tension -----	.15	Used on: Auburn 1923 to 25 Chalmers 1917 to 23 Chevrolet 1917 to 27 Federal Truck 1928 to 30 I. H. C. 1923 to 28 Maxwell 1923 to 25 and 19 others	
Used on: Buick 1926-27 GMC 1926-27		Used on: Auburn 1923 to 25 Chalmers 1917 to 23 Chevrolet 1917 to 27 Federal Truck 1928 to 30 I. H. C. 1923 to 28 Maxwell 1923 to 25 and 19 others		813245 Clip -----	.05
16631 Housing, Distributor -----	2.50	Used on: Auburn 1923 to 25 Chalmers 1917 to 23 Chevrolet 1917 to 27 Federal Truck 1928 to 30 I. H. C. 1923 to 28 Maxwell 1923 to 25 and 19 others		Used on: Practically all Delco-Remy Distributors where clip is used for retaining contact arms and Governor weights	
Used on: Buick 1926-27 GMC 1926-27		805579 Grease Cup25	Used on: This wrench and Part No. 12741 wrench will fit practically all Delco-Remy Distributors	
28619 Spring, Contact Arm -----	.10	Used on: Practically all distributors with Remy and Delco - Remy name plates		814664 Wrench -----	.10
Used on: Buick 1916 to 21 Cadillac 1927 to 29 Hup 1926-27 LaSalle 1926 to 29 Lincoln 1927 to 30 Marmon 1923 to 25 Nash 1922 to 24 Packard 1922 to 28 Peerless 1923 to 26 Pierce-Arrow 1926 to 28 Yellow Coach 1927 to 29 and 47 others		806766 Cam -----	.70	Used on: Chevrolet 1927 to 31 Chrysler 1926 to 31 Erskine 1927 to 30 GMC Truck 1926 to 29 Pontiac 1926 to 31 Studebaker 1927 to 31 and 43 others	
33402 Clip, H. T.	*.05	Used on: Auburn 1926 Chevrolet 1917 to 27 Federal Truck 1926 to 30 I. H. C. 1923 to 27 Maxwell 1923 to 25 and 41 others		816801 Spring, Distributor Cap Retainer --	.05
9MM—Press-on Type Not Illustrated		811837 Lead Assembly, Low Tension -----	.10	Used on: Chrysler 1926-27 Jewett 1926 Pontiac 1926-27 Stewart 1926 Velie 1926	
Used on: All Delco-Remy Distributors with upright outlets for 9MM Spark Plug Wires.		Used on: Auburn 1925 to 27 Chevrolet 1927-28 Chrysler 1926 to 28 Erskine 1927 to 29 I. H. C. 1923 to 31 Studebaker 1925 to 28 and 27 others		818222 Weight, Advance -----	.15
33958 Bushing, Dist. Shaft Bearing -----	.25	812259 Breaker Plate, Circuit -----	1.00	Used on: Auburn 1927 to 29 Buick 1928 Chrysler 1925 to 30 Packard 1927-28 Reo 1927-28 Studebaker 1926 to 28 and 59 others	
Used on: 83 different Delco-Remy distributors, many of which are used on popular passenger cars, trucks and busses, such as: A. C. F. Buick Cadillac GMC Truck LaSalle Nash		Used on: Chevrolet 1923 to 27 Federal 1927 to 29 I. H. C. 1925 to 28 Maxwell 1923 to 25 Ruggles 1926		820502 Shaft, Dist.	1.50
		812341 Spring, Contact Arm -----	.05	Used on: Nash 1927-28	
				820528 Weight Assembly -----	.15
				Used on: Chandler 1927-28 Cleveland Tractor 1928 to 31 Marmon 1928 Nash 1924 to 28	
				820738 Synchronizing Tool -----	\$.25
				For use on 8-Cylinder, Four-Lobe Cam Delco-Remy Distributors—types 651, 652, 657 and 658	
				820751 Synchronizing Tool -----	.25
				For use on 6-Cylinder, Three-Lobe Cam Delco-Remy Distributors—types 650, 656 and 659	
				826474 Breaker Plate, Circuit -----	.25
				Used on: Chevrolet 1927 to 31 Chrysler 1926 to 31 GMC Truck 1926 to 31 Olds 1927 to 31 Pontiac 1926 to 31 and 46 others	
				829537 Clip, H. T.	**0.05
				7MM—Solder-on Type Not Illustrated	
				829833 Clip, H. T.	**0.05
				7MM—Press-on Type Not Illustrated	
				Used on: All Delco-Remy Distributors with upright outlets for 7MM Spark Plug Wires.	
				834069 Spring, Distributor Cap Retainer ..	.05
				Used on: Buick 1928 to 31 Chevrolet 1917 to 27 Chrysler 1928 to 31 Cleveland Tractor 1928 to 31 Federal Bus 1928-29 Nash 1924 to 28 White 1928 to 31 and 36 others	
				1835170 Adapter Plate, Ignition Coil -----	.30
				Used on: Gardner 1929 Olds 1927-28 Windsor 1929	
				1838182 Synchronizing Tool -----	.25
				For use on Eight-Cylinder, Four-Lobe Cam Delco-Remy Distributors Type 660	

* Standard package of 100 ----- \$2.50.

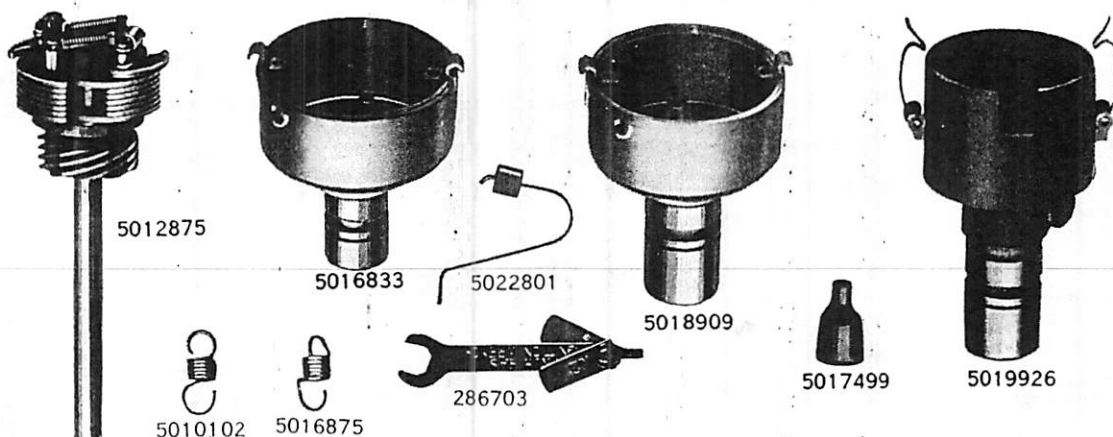

** Standard package of 100 ----- \$2.00.

The tungsten used in ORIGINAL EQUIPMENT contact arms and points is made by the patented "cut-rod" process, which gives maximum contact life and current conductivity. The patented arm assemblies are accurately manufactured from special materials selected for wearing qualities and positive performance at highest speeds.

Each different make and model requires brushes of exactly the same composition as originally specified by the engineers who designed the generator or starting motor. Brushes not supplied by the ORIGINAL EQUIPMENT MANUFACTURER may be of the correct physical dimensions but there is absolutely no assurance that the composition of the material is even reasonably suitable for the particular unit the brush is intended "to fit."

The inspection of generators, starting motors and distributors should always include a check of the bearings and bushings. A worn or defective bushing is liable to cause serious trouble later on and the car owner will be grateful for the insurance against damage and expense afforded by a new ORIGINAL EQUIPMENT PART.

Peerless 1928 to 30
Whippet Four & Six 1928 to 30
Willys Six and Eight 1930-31
World 1929-30

GAL-1115 Wick and Spr. Assy.	.03
------------------------------	-----

Used with GAL-49, GAL-57, GAL-116 and GJ-1165A Plain Bearings including:

Durant 1930
Essex 1927 to 31
Hudson 1930
Hupmobile 1929-30
Nash 1929 to 31
Whippet 4 and 6 1929-30 (Car and Tr.)
Willys Six and Eight 1930-31 (Car and Tr.)

GJ-1175 Wick and Spr. Assy.	.04
-----------------------------	-----

Used with GJ-1165A Plain Bearings on generator models GJ, GP, GT and GTB

GK-50 Brush Spring	.06
--------------------	-----

Used on GK-1003, GK-1120, GK-1135 and GK-2003 Brush Holder Plate Assy.

Part No.	Price Each
GT-18 Brush Spr. (2)	\$.02
GT-23 Brush Spr. (1)	.05

Used in generator models GAL 4100 series, GAM 4100 series and GAR 4100 series having C. W. D. E. rotation.

GT-18 Brush Spr. (1)	.02
GT-23 Brush Spr. (2)	.05

Used in generator models GAL 4100 series, GAM 4100 series and GAR 4100 series having C. C. W. D. E. rotation.

GT-18 Brush Spr. (1)	.02
GT-27 Brush Spr. (2)	.03

Used on GK-2146A, GK-2146B, GK-2214 and GS-2146A Brush Holder Plate Assy.

GT-23 Brush Spr. (1)	.05
GT-26 Brush Spr. (2)	.05

Used on GK-2147A and GS-2147A Brush Holder Plate Assy.

GT-18 Brush Spr. (1)	.02
GT-26 Brush Spr. (1)	.05
GT-27 Brush Spr. (1)	.03

Used on GT-2084A and GY-2046 Brush Holder Plate Assy.

GT-32 Brush Spr. Insulator	.05
----------------------------	-----

Used to insulate GT-18, GT-23, GT-26 and GT-27 Brush Springs on the Brush Holder Plate Assemblies and in the Generators listed above.

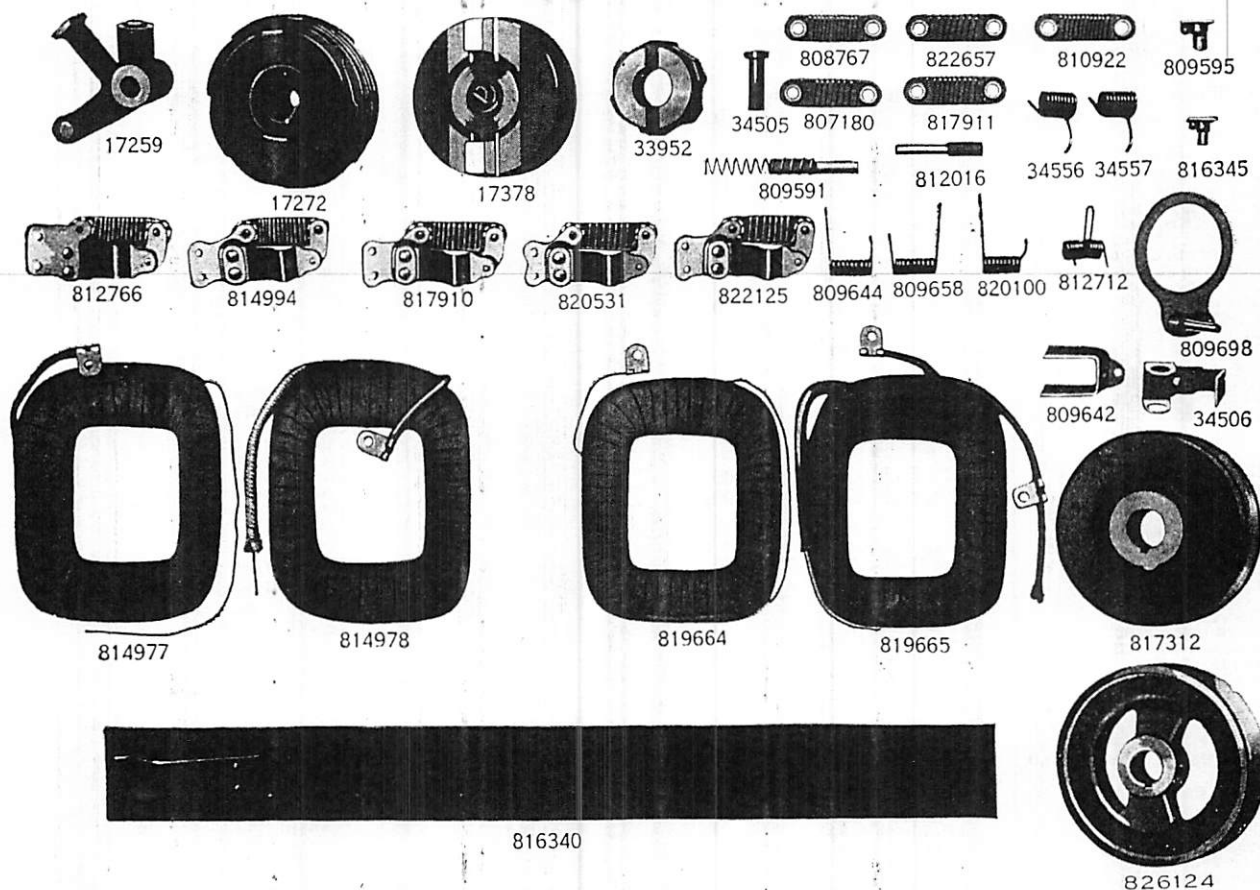

GT-41 Brush Holder Post Clip	.01
------------------------------	-----

Used on all assemblies listed under GT-18, GT-23, GT-26 and GT-27 Brush Springs.

SPECIAL PARTS ASSORTMENT BOX

For smaller repair shops and service stations; this metal box provides a handy storage space for an assortment of special electrical parts, such as contact arms, points, condensers, rotors, brushes, etc. It is divided into 28 sections, each equipped with a label holder. Price..... .95

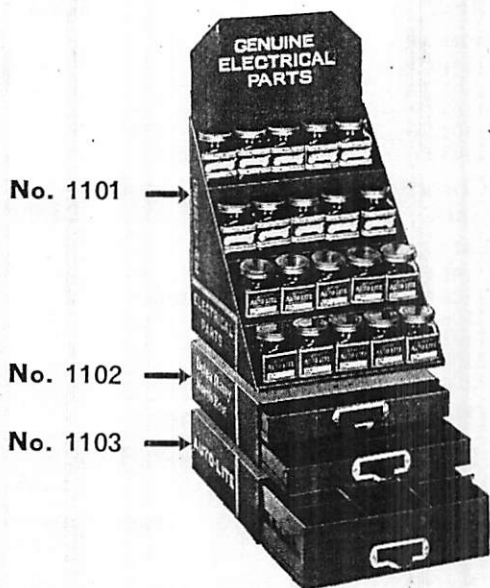

No. 1120

Special Parts Assortment Box

Length 13 $\frac{1}{4}$ " Depth 1 $\frac{1}{2}$ "
Width 11 $\frac{1}{2}$ " Weight 3 $\frac{1}{2}$ lbs.

A.E.A. Electrical Parts Merchandising STOCK BINS AND CABINETS

*Suggested Combinations Using Units Illustrated
on Preceding Page*

MERCHANDISING CABINET NO. 1108

This combination consists of:

- 1 No. 1101 Glass Jar Unit
- 1 No. 1102 Two-Drawer Unit
- 1 No. 1103 One-Drawer Unit

Glass Jars, No. 1107 must be ordered separately.

This is a very popular and attractive combination and is ideal for counter service and display. The drawer unit may either face the front or back of glass jar unit. In the back of the glass jar unit there is shelf space for keeping catalogs or the storing of additional parts. Additional units may be added as desired.

Merchandising Cabinet No. 1108

Height $21\frac{7}{8}$ ", Width $11\frac{3}{4}$ ", Depth $11\frac{5}{16}$ ",
Weight $30\frac{1}{2}$ lbs.

SMALL MERCHANDISING BIN NO. 1110

This combination consists of:

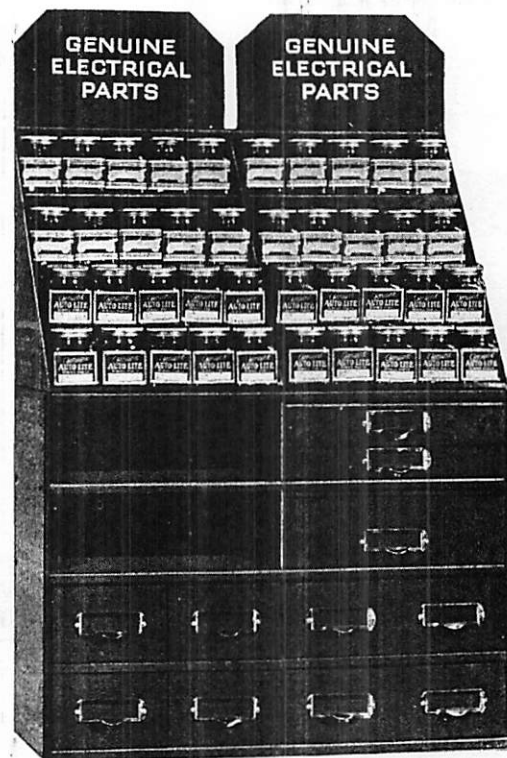

- 2 No. 1101 Glass Jar Units
- 1 No. 1102 Two-Drawer Unit
- 1 No. 1103 One-Drawer Unit
- 8 No. 1104 Single Box
- 1 No. 1105 Four-Shelf Open Unit

Glass Jars No. 1107 must be ordered separately.

This combination provides space for a fairly complete stock of electrical parts. It is recommended for Service Stations and parts stores who wish to carry a representative stock of genuine electrical parts in a counter and display unit. As in Cabinet No. 1108, space is available in the back of glass jar units for catalogs, price lists and additional stock.

Small Merchandising Bin No. 1110

Height $32\frac{5}{8}$ ", Width $24\frac{3}{8}$ ", Depth $12\frac{3}{32}$ ", Weight
88 lbs.
